## FOCUS OF THE WEEK:

### THE 5 C'S

The shift to the 5 C's refers to a transformation of teaching and learning while implementing a new set of standards which are standardized across the country and aligned with a global economy and its demands. The 5 "C's" include: Collaboration, Communication, Critical Thinking, Creating, and Global Citizenship. These shifts are asking for teachers to understand and become visionary in terms of what it means to get a student "College and Career Ready." They also ask for students to not only master content and basic skills, but also critical readiness like analysis, research, inquiry, and deeper learning outcomes, such as communication skills, critical thinking, and problem solving.

# HIGHLIGHTS/PBIS

**PBIS** Students have been making positive choices and have been earning Paw Bucks to spend at our student store. Many students have been self monitoring their own behavior. Teachers, continue to give students paw bucks for the following: being helpers, sharing, using good manners, and being problem solvers.

**Highlights**  
National Bully Prevention Month  
Paw Panther promoted a bully free environment and held a No Bullying sign. Passerby's and school busses honked in support of ending bullying.

**Bye Bye Bully Assembly**  
Obediah Thomas took the stage to educate the students on bully prevention. He defines "bully" to students, demonstrates the different kinds of bullies and bully situations. Most importantly, Obediah suggests positive mindset and actions that a student may take to deal with a school bully situation.

**Rotary Club** generously donated dictionaries to our wonderful third graders. Thank you Rotary Club for supporting our school.
